

## BRESTON

# Breston HV28-140 Ship loader

€0

## Description

---

Efficient Bulk Handling Solutions for Transshipment Discover our line of compact and versatile Breston HV28-140 Ship loader mobile ship loaders, engineered for efficient bulk handling operations in ports, transfer terminals, and transshipment sites globally. With a length of 28m and a belt width of 140cm, these loaders excel in handling various materials, including grains, cocoa, and other bulk commodities. Boasting a high capacity of approximately 1200TPH, they ensure seamless loading processes for a wide range of vessels, from barges to handymax/baby capsized vessels. Their mobility facilitates support for existing stacker/reclaimer systems during breakdowns or maintenance, optimizing space usage and expanding your stockpile. With immediate availability, our ready-to-ship loaders guarantee minimal waiting time, enabling smooth and efficient transshipment operations tailored for the grain and bulk handling industries.

## Specifications

---

Make	Breston
Condition	New
Type of belt	Chevron
Plug	125A-5P
Wheel drive	Hydraulic

## Features

---

- ✔ Variable belt speed
- ✔ Start-stop control
- ✔ Scrapers on return rollers
