Description

Introducing our top-of-the-line machine, Miedema MH241 Receiving hopper. Known for its unbeatable price-to-quality ratio. With a robust frame and easy operation, it offers a 5.6m length and 240cm for versatility. The hydraulic height adjustment, coupled with a drum motor and frequency control, ensures precise performance. Plus, it features a retractable towbar for added convenience. Elevate your productivity with this exceptional machine.
