Description

WIFO HOD-175-RVS Loading bucket - Perfect for Handling Potatoes and Onions The WIFO HOD-175-RVS Loading bucket is specially designed for handling damage-sensitive products, including potatoes and onions. The loading bucket has a width of 175cm and a total volume of 1300L, ensuring it meets the demands of your project efficiently. The scoop’s rounded edges help protect products from damage, while the wear-resistant manganese cutting edge provides exceptional durability. Additionally, the dual hinge mechanism minimizes height loss during emptying, and the integrated view-through grid ensures optimal visibility.

Specifications

Make	WIFO
Condition	New

Features

- Stainless steel bottom plate
