WIFO K54A-O-L Box rotator

€3.375

Description

WIFO K54A-O-L Box rotator - Perfect for Handling Potatoes and Onions The WIFO K54A-O-L Box rotator is specially designed for handling damage-sensitive products, including potatoes and onions. The loading bucket has a width of {{ ATTRIBUTE_WIDTH }} and a total volume of {{ ATTRIBUTE_VOLUME }}, ensuring it meets the demands of your project efficiently. The scoop's rounded edges help protect products from damage, while the wear-resistant manganese cutting edge provides exceptional durability. Additionally, the dual hinge mechanism minimizes height loss during emptying, and the integrated view-through grid ensures optimal visibility.
