Description

Optimize Your Potato Box Filling with the Miedema MB34 Box filler Tailored exclusively for potato producers, the Miedema MB34 Box filler revolutionizes box filling operations for this essential crop. Crafted with precision engineering, this New machine ensures reliable performance and user-friendly operation. Experience uniform filling and maximum throughput with the Miedema MB34 Box filler. Equipped with arrester flaps for gentle handling and innovative Start-Control functionality, it enhances operational efficiency while minimizing power consumption. Streamline potato box filling with the Miedema MB34 Box filler, featuring a dust-proof control box and nodding filling belt mechanism. Its advanced shifting mechanism minimizes drop height, ensuring consistent product quality in every box. Trust the Miedema MB34 Box filler for consistent and reliable potato box filling performance, from planting to packaging. Its robust construction and dependable operation minimize downtime, maximizing productivity on your potato farm. Elevate your potato box filling operations with the Miedema MB34 Box filler and unlock unmatched efficiency and reliability.

Specifications

Make	Miedema
Condition	New
Frequency inverter	Yes

Features

- ✓ Van Der Graaf drum motor
- ✓ 1 belt speed
- ✓ Start-stop control
- ✓ Product sensors
- ✓ Forklift pockets
- ✓ Prepared for CANbus communication between box fillers
- ✓ Power outlet (5 A) on machine
- ✓ HMI operator panel
- ✓ Arrester flaps
- ✓ Variable belt speed
