

## BRESTON

# Breston Z22-100XW Ship loader

€108.750

## Description

---

Efficient Bulk Handling Solutions for Transshipment Discover our line of compact and versatile Breston Z22-100XW Ship loader mobile ship loaders, engineered for efficient bulk handling operations in ports, transfer terminals, and transshipment sites globally. With a length of 22m and a belt width of 100cm, these loaders excel in handling various materials, including grains, cocoa, and other bulk commodities. Boasting a high capacity of approximately 350TPH, they ensure seamless loading processes for a wide range of vessels, from barges to handymax/baby capsized vessels. Their mobility facilitates support for existing stacker/reclaimer systems during breakdowns or maintenance, optimizing space usage and expanding your stockpile. With immediate availability, our ready-to-ship loaders guarantee minimal waiting time, enabling smooth and efficient transshipment operations tailored for the grain and bulk handling industries.

## Specifications

---

Make	Breston
Condition	Used
