

BRESTON

Breston Z22-100XW Ship loader

€82.800

Description

Efficient Bulk Handling Solutions for Transshipment Discover our line of compact and versatile Breston Z22-100XW Ship loader mobile ship loaders, engineered for efficient bulk handling operations in ports, transfer terminals, and transshipment sites globally. With a length of 22m and a belt width of 100cm, these loaders excel in handling various materials, including grains, cocoa, and other bulk commodities. Boasting a high capacity of approximately 350TPH, they ensure seamless loading processes for a wide range of vessels, from barges to handymax/baby capsized vessels. Their mobility facilitates support for existing stacker/reclaimer systems during breakdowns or maintenance, optimizing space usage and expanding your stockpile. With immediate availability, our ready-to-ship loaders guarantee minimal waiting time, enabling smooth and efficient transshipment operations tailored for the grain and bulk handling industries.

Specifications

Make	Breston
Condition	Used
Type of belt	Smooth
Plug	32A-5P
Wheel drive	Electric

Features

- ✔ Automatic store filling (+€2.350)
- ✔ Wireless remote control (+€2.650)
- ✔ Coupling element (+€1.000)
