Description

The Van Trier OL8-80 Bottom unloading belt is your ultimate solution for efficient bottom unloading belt operations in agriculture. Built in 2026, this New machine is tailored for precise handling of onion seeds, seed potatoes, and fertilizer, whether in the field or in the shed. With a belt length of 8m and a width of 80cm, the Van Trier OL8-80 Bottom unloading belt enables fast and accurate material transfer from tipping trucks to essential agricultural equipment like potato planters, fertilizer spreaders, and seed drills. The Van Trier OL8-80 Bottom unloading belt is engineered to optimize your material handling, ensuring quick and controlled transfers that meet the diverse demands of agricultural activities. Experience consistent and dependable performance with the Van Trier OL8-80 Bottom unloading belt, designed to minimize downtime and maximize productivity across all agricultural tasks. Upgrade your operations with the Van Trier OL8-80 Bottom unloading belt, providing efficient and reliable solutions for the seamless handling of onion seeds, seed potatoes, and fertilizer.

Specifications

Make	Van Trier
Condition	New
Plug	32A-5P
Height adjustment output	Electric-hydraulic

Features

- Controls on both sides
