Description

The Miedema MH241-DVB Receiving hopper is a reliable and versatile solution for bulk handling needs. Constructed in 2025, this New receiving hopper offers a wide floor width of 240cm and a generous floor length of 5.5m. It is equipped with 8 PU spiral rollers to handle agricultural materials with high precision. Designed to make the transfer of materials from low supply points seamless, it works well with conveyor belts, dual belts, or storage loaders, adapting to various operational requirements. The Miedema MH241-DVB Receiving hopper simplifies the entire bulk handling process. Products from the field are unloaded into the hopper and processed through a soil separating module, ensuring they are thoroughly cleaned and minimizing waste. Ideal for a variety of industries and applications, the Miedema MH241-DVB Receiving hopper delivers consistent reliability, efficiency, and precision in every operation. Enhance your operations today with the reliable and efficient Miedema MH241-DVB Receiving hopper receiving hopper.

Specifications

Make	Miedema
Condition	New
Type of rollers	PU spiral rollers

Features

- Variable belt speed
- Output socket
- Presentation belt
- Electric gap and electric lift adjustment cleaning unit
- CleanBoost
