Description

Elevate your bulk material handling with the Van Trier V45120 Dosing bunker, a heavy-duty receiving hopper designed to optimize efficiency across diverse industries. Engineered with robust construction, it can reliably handle various bulk products, making it a valuable asset for transshipment, recycling, and agribulk terminals such as grain storage facilities. From grain, coffee beans, cocoa beans, wood pellets, sand, gravel, to soil, this hopper accommodates a wide range of materials, essential for processing and storage systems. Tailored for truck unloading, the Van Trier V45120 Dosing bunker also supports material transfer via wheel loaders or cranes. With a floor length of 4,5m and a width of 120cm, it boasts a substantial capacity of approximately 70TPH. Equipped with a cross conveyor at the end, it offers flexible material discharge to the left or right, seamlessly integrating with conveyor or shiploader systems. Revolutionize your material handling operations with the Van Trier V45120 Dosing bunker today!

Specifications

Make	Van Trier
Condition	New
Plug	32A-5P
Floor speed	Variable

Features

- ✔ Variable belt speed
