Description

Introducing the Miedema MC1780C Dual belt conveyor: a versatile solution for agricultural material handling. With telescopic conveyor belts, each measuring 16m and 80cm in width, this conveyor offers a capacity of 120TPH. Its unique design allows for extendable and retractable functionality, comprising two separate parts to facilitate operation at angles or around corners. Ideal for loading agricultural products like potatoes or onions in-store, it can also handle cocoa beans and serves as a sorting belt for crops, efficiently sorting out imperfections like bad potatoes or clods.

Specifications

Make	Miedema
Condition	New
Plug	32A-5P
Height adjustment input	Manual with jack
Height adjustment output	Hydraulic with handpump

Features

- Variable belt speed
- Electric length adjustment, freewheel function
- Van Der Graaf drum motor
- Comfort undercarriage with 4x2 solid swivel wheels
- Handlebar
