MIEDEMA

Miedema MH200 Receiving hopper

€56.008

Description

The Miedema MH200 Receiving hopper is a cutting-edge solution designed for efficient bulk handling operations. Manufactured in 2025 and meticulously maintained, this New receiving hopper features a spacious floor width of 200cm and floor length of 4,4m. Outfitted with 8 Steel spiral rollers, it is optimized to handle a variety of agricultural materials with precision. Built to streamline the transfer of materials from low supply points, it integrates seamlessly with conveyor belts, dual belts, or storage loaders, offering versatile operational flexibility. From initial unloading to final processing, the Miedema MH200 Receiving hopper enhances the bulk handling process. Products from the field are efficiently fed into the hopper, processed through a soil separating module to ensure thorough cleaning, thus maximizing efficiency and reducing waste. Perfect for diverse industries and applications, the Miedema MH200 Receiving hopper ensures reliability, efficiency, and precision in every task. Upgrade your operations today with the advanced and high-performing Miedema MH200 Receiving hopper.

Specifications

Make	Miedema
Condition	New
Type of rollers	Steel spiral rollers

Features

- ✓ Output socket
- ✓ Variable input board
- ✓ Double rubber flap
- ✓ MH-Control
- ✓ Frequency inverter
- ✓ Smart-Pin
