Description

Discover the high-performance MH241-2 Receiving hopper, tailored for efficient bulk handling operations. Built in 2026 and maintained to perfection, this New receiving hopper features an expansive floor width of 240cm and floor length of 5,1m. With 15 PU spiral rollers, it expertly handles various agricultural materials with precision. Engineered for seamless material transfer from low supply points, it is compatible with conveyor belts, dual belts, or storage loaders, providing adaptable operational flexibility. The MH241-2 Receiving hopper enhances the bulk handling process from start to finish. Materials from the field are efficiently fed into the hopper, processed through a soil separating module to ensure comprehensive cleaning, thereby optimizing efficiency and minimizing waste. Suitable for a wide array of industries and applications, the MH241-2 Receiving hopper offers unmatched reliability, efficiency, and precision in every operation. Elevate your operations today with the high-performance MH241-2 Receiving hopper receiving hopper.

Specifications

Make	Miedema
Condition	New
Type of rollers	PU spiral rollers
Type of rollers first set	PU spiral rollers
Type of rollers second set	PU spiral rollers

Features

- Start-stop control
- Variable belt speed
- Retractable tow bar
- Cable hook
- Frequency inverter
- MH-Control
